

Una Grande Avventura

Angelo Sartorelli

Una Grande Avventura

Life brings you through many chapters: from the magic of childhood, to adulthood, and later, to old age. As a child, you feel the adventure and excitement of life. As an adult, you try to settle down and live a moderate life. Life is at all times (and all ages) a great adventure that leads to unpredictable moments.

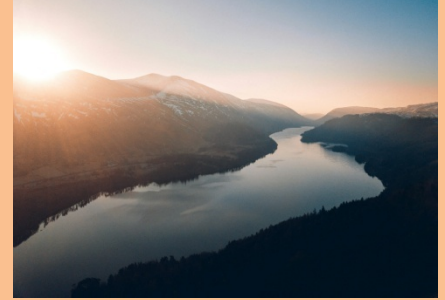

This album is a celebration of the adventure that is life.

After the Storm

There is a feeling of turbulence and awe after the storm, but everything will go back to calm.

Movement is necessary to life and change.

The River of Love

We all come from an unknown source and we flow to another like a river. Love is the quality that makes this journey possible.

Hope Esperanza Espoir

There is always hope even in the worse circumstances.

This is a call for our present times of struggle, despair, genocide, and more.

There is always hope of a better future.

The Time Gone

Time flows interruptedly in our existence leaving memories, accomplishments, people we loved, and journeys we took. It will not come back.

Essouira

Essaouira is a beautiful Moroccan city on the Atlantic Ocean, known to be blasted by constant winds. A spectacular city with a fortress and houses painted in beautiful aquarelle colors.

Mahsa

Celebrating Masha Jina Amini, a Kurdish Iranian woman murdered by Iranian police. She became a symbol of freedom for all women.

La Ballata del Tempo

Time is rhythmic and danceable. Time is directing the space, letting the shapes to take form.

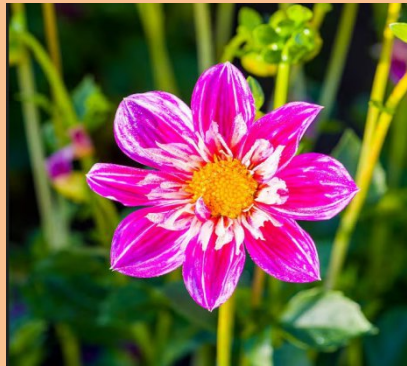

Manifestation is a combination of time and space acting in a perfect cadence.

Il Ricordo di Te

People that we have lost in our lives are always with us in our memories.

Gioia d'Amore

This is the feeling of love, pure joy that penetrates in the whole self. This is a moment when someone perceives the higher level of existence.

The Wave is Coming

When the wave is coming there is expectation and awareness; it's a moment of truth.

The wave will come and wash out the shore and open everybody's eyes.

Revolution!
